# CITY COUNCILMEN

Went Thru Busy Session On High and Did Some Big Things In Little Time

The mills of the gods did not grind slowly on Thursday night with regard to the Richmond city council, high, turned on the gas, and remained at high speed for a period of almost an hour-unmindful of the speed limone another, and members of the seem to startle anyone. So much for council vieing with one another rela- gossip. tive to speed. Territory covering the entire city and county was taken in, and when the brakes were applied is unlawful to draw vehicles over the Lodge's fight against the adminisand the first stop finally made there streets with the wheels locked. This were more than half a dozen ordinances passed regarding the protection of the city of tion and maintenance of the city dinances without a hitch. streets and much miscelllaneous matter out of the way, of which the following is the essential part:

There was a complete attendance, the first time such has been recorded for a period of several weeks.

Reading of the minutes by Clerk Blanton, which were approved. Report of Chief of Police Devore for the past quarter showed fines in the sum of \$203 were imposed during the month of July; for August, \$372, and September, \$577, business being out of the ordinary. The report was referred to the finance committee, as

usual. The matter of fixing the East Main street crossing and improvement of hole, which was an eyesore, would cost more than the improvement and the improvement. Mr pany would pay for the crossing at the railroad if the street were fixed and felt the economy was worth considering. Mr. O'Neill then spoke of the street extension, stating that the paving was ended at the ralway crossing, and thoroughfare with the mudhele at the end would look like a dog with its tail cut off. None seemed to favor this result, and it was decided to turn the matter over to the city engineer and have him take up the proposition wth the railway company, as well as Mr. O'Neill, and proceed with the work, since \$1,800 would not make much differ debts of the city, anyhow. This was dose and the tarvia will start at the east and close with the merging of the paving at htis crossing, and with this new piece of road finished East Enders can come to the city and not have to hold to the top of their carriages whes making the crossing, and pedestrians will not have to wear rubber boots. This matter was referred to the light committee, which will investigate and report back to the council. The lights will in all probabilty be provided.

Running cold again, Mr. Mershon held the floor and presented an ordi-

nance making it a misdemeanor for any firm, person or corporation to drive heavy traction engines over the new streets with rough wheels and according to the measure, which was passed, this will not be allowed.

# Lives to See the Prescription He Wrote in 1892 the Worlds Most Popular Laxative Remedy

Born Shelbyville, Mo., March 27, 1839 Began the manufacture of his famous prescription in 1892

Founder of Dr. Caldwell's Syrup Pepsin, the largest selling liquid laxative in the world, long past Biblical old age, but hale and hearty-Still sees patients daily—Wonderful achieve-ment of a "country doctor."

THEN I started to practice medicine, back in 1875, there were no pills or tablets or salt waters for the relief of constipation, and no artificial remedies made from coal tar.

The prescription for constipation that I used early in my practice, and which I put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid remedy, and I have never had reason to change it. I intended it for women, children and elderly people, and these need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

I am gratified to say that under successful management my prescription has proven its worth and is now the largest selling iquid laxative in the world. The fact that over eight million bottles were sold by druggists last year proves that it has won the confidence of mothers whose chief interest is the health

It is particularly pleasing to me to know that the biggest half of those eight million bottles were bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for grownups. The price of a bottle holding 50 average treatments is sixty cents; such a bottle will last a family several months.

I have never made a secret of what is in Dr. Caldwell's Syrup Pepsin. It is a compound of Egyptian Senna and other simple laxative herbs

Pharmacopoeia. I consider Syrup Pepsin today in the serious 82nd year of my age, as I did in 1892, the best remedy a family can have in the house for the safe relief of constipation and its accompanying ills, such as headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and

# **EXTENSION WORK**

Demand Proving So Great That Special Class Is Organized For Nicholasville

While Madison county is turning out an immense number of teachers for schools in this and other states. there is an extension course in the way of a correspondence school that is attracting wide attention, since there are many inquiries being made regarding the 26 subjects offered and about 100 courses already are recorded, although this is the first year for this feature of the work.

The new departure, which the offi-

cials of Eastern Normal state promises to become one of the most important and extensive in the future. enables teachers to acquire this additional knowyedge while at home, the work being inspected and passed upon by an able and well organized instructor corps. This, it isc laimed, does away with the liability of much waste and misdirected effort that oftentimes accompanies home study. One of the professors of the school stated today the percentage of study at home was increasing steadily, and the organization of an efficient corps of instructors to judge the work and direct instruction was responsible for its success to a great degree.

Prof. J. R. Robinson, in charge of this department, in speaking of the extraordinary degree of success accompanying the new venture, explained that the fact was being recognized by many teachers that they could remain at their schools and at the same time acquire the coveted knowledge along the various lines, of which there are 25 at present. The list grows and endorsement of the state educational board is expected, since the same textbooks are used as are used in the high schools of this and other cities. There will be an extensive class at Nicholasville, comprising students from that city and vicinity, as a result of the favor with which the new measure has been accepted. There will be regular classes Superintendent Smith, of the Nicholasville schools, and it is probable that other classes will be started within a short time elsewhere.

More Than 300 Property Owners Visit Commissioner's Office In One Day

Farmers of Madison county, according to County Tax Commissioner Ben Powell, are both a progressive and prosperous element, and he is becoming more and more convinced of the to the editor of the Daily Register, fact as the rush of work at his of-John R. Downing, state treasurer for than 300 men called at his office one day the first of the week within a period of eight hours, presenting ed that Mr. Pewell "be sure to get them in on time."

This fact, it is believde, taking the the property owners of few counties of the state. There is a general desire upon the part of property owners, especially in the rural districts. Mr Powell asserts, to have their reports in and matters pertaining to Four armed bandits entered a bank the payment of their taxes adjusted All report good crops and seem in a better frame of mind than usual, the commissioner declares indicating all are surely in a very prosperous condition. The property owners have the remainder of this month in which to make their returns, and it is estimatyear there were so few who failed to make their reports that the tax ferrets grew lean in this locality and hied away to new fields.

Owing to the grand jury meeting in the regular office of Commissioner Powell, he has taken temporary quarters in the office of the circuit clerk "I'm in on the ground floor," stated Mr. Powell, "and will remain here during the meeting of the grand jurors, and believe I will like it very much, so just tell my friends that ! will look for them here for the present, at least."
